

RECOVER PRO

PP Woven groundcovers

New benchmark for nursery groundcovers

Outstanding specifications

1. 37% CO₂ reduction
2. Guarantee of 900 kLy UV protection
3. Lifetime of more than 10 years
4. High resistance to mechanical stress
5. Optimal environmentally friendly weed control
6. Reinforced water permeability

RECOVER PRO

PP Woven groundcovers

Functions

- Stimulates the growth of the plants
- Prevents the growth of weeds
- Not harmful to the environment and prevents the use of herbicides
- Reinforced water permeability for container fields

Advice on proper usage:

Avoid use of chemicals and cleaning agents with extreme acidity.
Proper maintenance will prolong the lifetime.

Product Specifications

Properties	Value	Test method
Material	Polypropylene	
Recycled content	40% post-industrial waste	QA-CER system 2
Recyclability	100%	
Tissue colour	Black	
Pattern	Line 25 cm	
Colour lining	White	
Tissue weight	200 g/m ²	ISO 3801
Roll length	100 m	
Roll width	105 - 257 - 515 cm	

Environmental Impact Categories

Global warming potential (Cradle-to-Gate)	0,22 kg CO ₂ eq./m ²	EN 15804 + A2
--	--	---------------

Technical Characteristics

UV-stabilization	≈ 900 Kly	ISO 4892-3 cycle 3
Waterpermeability	0,025 m/s	ISO 11058
